

## Our Vision

The Habitation charity has an objective to work with young people in Kent in helping them to grow in maturity in their young lives. We work with children aged from three years old to young people aged eighteen. Our mission is to enable them to live life skilfully in all areas of their life, from their school life to family life to personal life.

We do this through several channels. We work in local schools, run after schools clubs, sports groups, workshops and summer camps. The workforce is mainly a large volunteer base run by a management team.

The habitation charity works with young people of all beliefs and values, and is affiliated with Jubilee Church in Maidstone. It has an aim to impart Christian values to young people whilst not discriminating in any way. We strive to embrace all people of all beliefs and show them unconditional love and acceptance.

We work in partnership with many schools, charities and volunteer groups looking to bring cohesion to the work done with young people in Kent.
