

How We're Supported

Maidstone Lions

We have received support and work in partnership with the Maidstone Lions charity. They sponsored the Masada summer camp in 2006 and our relationship with the Lions has continued to grow ever since.

The Kent Community Foundation

The Kent Community Foundation allocated a substantial grant to the Habitation charity for the Masada Summer camp 2007. This grant enabled many young people in the Kent community to participate on the camp and have a week away with other young people.

Private donations

The daily running of the charity large relies on private donations. These donations come from the parents of the young people we assist, from the volunteers and from other people in the community.
